Description: Each list is accompanied by quirky illustrations. With over a million copies sold, list makers love the Listography journals! This fun and imaginative guided journal is the ultimate tool for creating a unique autobiography entirely in list form. Some lists include: greatest accomplishments, memorable co-workers, places you've lived, guilty pleasures, and greatest acts of kindness.

The interesting thing is how these lists have stimulated so many forgotten memories and also provided fodder for more detailed projects. In fact, you could do a journal for each list, or write a story for each list! And the really cool thing is that you can skip any lists that you find boring or objectionable and cross out the suggested idea and replace it with your own! I could go on and on! If you like lists, you can't go wrong with this book! It's so much fun, with such a huge variety of topics that it will keep me occupied for a long time, I'm sure. I'm kind of a list maniac, so this book is right in my wheelhouse. Or they could be art prompts or Pinterest subjects or photo organization ideas or subjects for family discussions. Sometimes I stick with one list, and other times, I skip around from one page to another.
